Tribe or Nation? Nation Building and
Public Goods in Kenya versus Tanzania
Edward Miguel   Replication Materials - ReadMe

1   Overview

This folder contains all documents and files to reproduce analysis as published in "Tribe or Nation? Nation Building and Public Goods in Kenya versus Tanzania", *World Politics*, 2004.

To replicate the analysis, use the main STATA .do file "Tribe or Nation_Replication.do". At the beginning of the file, change the filepath to reflect the location of your replication files:

```
/*CHANGE TO REFLECT LOCAL DIRECTORY STRUCTURE*/
cd "C:\Users\ecascardi\Desktop\STATA\Tribe or
Nation\Replication";
```

This defines where the directory sits on your computer. Note that several STATA routines may need to be installed for the programs to run properly.
